

**ANNUAL REPORT OF KAMALA NEHRU COLLEGE NORTHEAST CELL: July 2018-
June 2019**

The Northeast Cell of the college initiated an awareness drive on the existence of the Northeast Cell and its empowered role/responsibility to address the welfare, concerns and needs of the Northeast students. The cell organized an Orientation Programme on 2nd August 2018 for the students. The Nodal Officer, Ms. Victoria Potshangbam advised the students to be regular with their classes and stressed on the maximum 5 points score generated (out of 25 marks) through full attendance as part of criteria of an Internal Assessment. The students were further encouraged to take part in various extracurricular activities (ECA). They were informed that the cell had initiated a creation of a database on the details of the students from various streams/courses and year. The students were informed to mandatorily provide their details. For this purpose, it was decided that the student representatives from each department will be selected and their role would be to collect the students' data and submit it to the Nodal Officer.

A total number of 33 students had attended the orientation. The Nodal Officer and the faculty members, Ms. Elvina S. Amongla and Dr. Robert Mizo attended the orientation.
